OBJECTIVE

A technology-driven B.Tech undergraduate at Karunya Institute of Technology and Sciences with a passion for software development, product innovation, and entrepreneurship. Seeking opportunities to apply technical skills and creative problem-solving to build meaningful, real-world solutions.

EDUCATION

B.Tech (Undergraduate)	2026 – Present
Karunya Institute of Technology and Sciences	
Focus: Software Development, AI/ML, IoT, Product Development, Entrepreneurship	
Higher Secondary Education (11th & 12th)	Completed 2025
Daniel Thomas Matric Higher Secondary School	

TECHNICAL SKILLS

Proficient	Learning	Interests
Python, C, C++	TypeScript, HTML, CSS, React.js, Node.js, Git, GitHub	AI/ML, IoT, Product Development, Entrepreneurship

PROJECTS

Athletica — Sports Ecosystem Platform

A comprehensive digital platform connecting athletes, coaches, academies, turf owners, and sports communities. Features include athlete profiles, coach discovery, venue booking, tournament management, and a sports marketplace.

EduTwin — Education Technology Platform

A digital learning platform aimed at improving student engagement and accessibility through technology-driven educational tools and resources.

Animal Intrusion Detection System

Machine Learning and IoT-based system to detect animal intrusions and send real-time alerts, reducing human-animal conflicts. Built with Python, ML, and IoT.

AI Dialect Translator

AI-powered NLP solution for translating text and speech across multiple languages and regional dialects, improving communication accessibility.

Smart Attendance Management System

Automated Python and database-driven attendance tracking system for educational institutions, simplifying records and improving accuracy.

Smart Light Control System

IoT and embedded systems solution for intelligent, energy-efficient lighting control and management.

EXPERIENCE

Stipend-Based Internship

Secured through project development and innovation efforts.

- Product development lifecycle and real-world problem solving
- Professional collaboration and project execution
- Industry exposure and applied technology skills

ACHIEVEMENTS & ACTIVITIES

- Active participant in innovation and entrepreneurship initiatives
- Exploring startup ecosystems and emerging technologies
- Continuously developing product strategy and business acumen
- Passionate about transforming ideas into impactful solutions

CORE STRENGTHS

- Critical Thinking
- Analogical Thinking
- Product Innovation
- Design Thinking
- Entrepreneurial Problem Solving
- Strategic Decision Making
- Continuous Learning & Building
